CeBIT, Hannover, Germany. March 10-14 2014. Hall 6 Stand C44 UK Pavilion – G05

Repeat Digital Signage Software challenges CeBIT visitors

Repeat Digital Signage Software is so easy to use, that they are challenging visitors to their stand to create a presentation in less than 10 minutes. Everyone who completes the challenge will be entered into the prize draw to win one 25 Repeat Signage software licences.

Repeat Signage is so easy to use that primary school pupils designed their school digital notice board, creating content and playing it onto a large display screen in their school foyer.

Repeat Signage helps you get your message across and promote your products and services. It is easy to use and you can create a presentation and have it playing in minutes.

“The challenge is easy”, says Linda Adams, director of Repeat Software Ltd, developer of Repeat Signage, “all you do is select ‘Presentations’, click ‘Create Presentation’, select which size landscape or portrait screen you are designing for and then insert a variety of media. You can insert pictures, Flash banner (text over pictures), Flash clocks, .PDFs and MicroSoft Word documents, video and audio, a website, webcam and other media. For example, here is a video showing a sample presentation created in under 9 minutes.”

“Teaching Technology for Education”, an online publication, features a Repeat Signage challenge for schools and colleges. Open to education worldwide, all published presentation examples are entered into an ongoing monthly prize draw contest to win Repeat Signage for

their establishment.
